

Office Memorandum • UNITED STATES GOVERNMENT

TO : Files

DATE: 5 October 1951

FROM : Chief, Budget Division

SUBJECT: PRC Approval of [REDACTED]

1. The PRC approved this date the subject project, subject to assurance that there would be proper internal and external accountability for the equipment. This has reference to the agreement to the principle, as outlined in the Comptroller's memorandum of 27 September 1951 to the PRC, that the cost of material withdrawn from the [REDACTED] stockpile be credited to the operational project with an appropriate offsetting reduction against Project [REDACTED] to assure proper project costs. In addition, the Committee wanted to assure appropriate accountability in the transfer of the subject equipment. It was the intent to assure proper evidence of receipt of the material and not accountability beyond the point of receipt. Mr. Wolf requested that the Comptroller's Office take such immediate action as is necessary to provide for proper accountability in order that the project may be undertaken as soon as possible.
